THE IRISH IN BRITAIN DIRECTORY

The Irish in Britain Directory will be available from June 1989 and I am writing to offer your organisation the opportunity to order copies.

It will be of interest to all Irish people, those interested in Irish affairs, local authorities and groups working with members of the Irish community who need up-to-date information. Over a million Irish born people live in Britain, with the annual emigration rate topping 30,000. When those who emigrate from the North of Ireland and second generation Irish people are taken into account alongside these official figures, the size of the Irish community in Britain is considerable. Organisations founded by and for these people and their friends have now been drawn together in this unique publication. The Directory is a vital handbook packed with contacts in all spheres of life, in all areas of Britain.

The Directory covers four main areas:

- Social and Community groups (Social groups, welfare centres, and clubs across Britain; organisations for women, youth, travellers)
- Arts, Cultural, and Education groups (Irish language and studies courses, dance, Gaelic sports, entertainment)
- Business and Commercial organisations (Businesses and how to set them up - manufacturers, retail shops, travel firms, etc.)
- Information and Advice (on welfare benefits and pensions, accomodation, education and training courses, the law and peoples rights in Britain, Prevention of Terrorism Act, and many other issues as they affect all sections of the Irish community in Britain today).

Please send copy/ies of The Irish in Britain Directory at £3.00 each plus costs for postage and packing. I enclose a cheque/ Postal Order (sterling) to the value of
