★ T R DALLAS ★

T R DALLAS and the **T R DALLAS BAND** have been a big success in Ireland, where they have had several hit singles and two well received albums. **T R DALLAS**, who comes from the Midlands of Ireland, got his biggest break when he replaced Big Tom in the "Mainliners" but went on to form his own group. The band successfully supported fellow countrymen Foster & Allen on the last tour and due to their obvious popularity have been asked back this year.
