Dear Alan,

I am sorry I missed the last few meetings of the IBRG ,due to work commitments,including a visit to Ireland to present a paper on Educational Disadvantage,a copy of which I am enclosing.I thought you might be interested in particular in the suggestion of an emigration policy as well as in the references cited.I'd be glad to receive any comments you might have.Perhaps you would also let me know of any further meetings planned for IBRG?

Best Wishes

James
