THE ANTI-PARTITION OF IRELAND LEAGUE.

---

A movement has been formed in Great Britain called the Anti-Partition of Ireland League with the object of informing public opinion in this country on the facts of the Partition of Ireland, its evils, anomalies and inconsistencies, and the necessity for restoring the Six Counties to the rest of Ireland.

*The greatest injustice* → The League appeals to all Irish people in the London Area to support them in the great task of helping to restore the territorial unity of the Motherland, in the confident belief that it is only necessary to remind them of their nationality to ensure their enthusiastic co-operation in our effort to inform British public opinion as to the justice of our claim and the urgent necessity for its satisfaction.

*Partition must go* ↙

Membership of the League is open to all persons, whatever their political convictions, who are convinced that Ireland's claim to unity is just and reasonable, and who are ready to work in a constitutional, democratic, and legal way for the removal of the artificial frontier between Irish people in their own homeland. The League is entirely independent and non-sectarian and is unique in that it welcomes also the support of British people of good will and honest purpose who see in the natural aspirations of the Irish people for unity a factor for peace between two old and historic nations.

The Partition of Ireland must GO..... It can go now with Britain's good-will. But before any steps can be taken to remove the last and most grievous injustice to Ireland it is necessary to bring home to the British public the responsibility of the British Government for its continuance in the granting of huge subsidies, financial guarantees, and military support to

.....

*Subject 1*That is *indicated*

bolster up the present regime in the Six Counties. why the Anti-Partition of Ireland League has been founded and that is why it calls upon all Irish people in Britain who take pride in their race and their nationality to enrol under its banner and make their influence felt in from of public opinion.. The League must be the means of demonstrating to the world at large, and to British people in particular, the racial solidarity of Irish people on this vital and urgent issue. The greatest injustice to which our country in her troubled history has yet been subject remains unredressed - and it is up to YOU to remedy it.

Branches of the League have been established in many districts in London and the work of recruiting members and attracting attention to our claim for unity is rallying support from every quarter. We want the League to be strong in members and well organised in character for the cause which we have espoused commands support from every Irishman and Irishwoman and as well as from all who love justice and seek peace between nations. The unnatural dismemberment of Ireland must go and with it will go the last barrier to a real and lasting peace between Ireland and Britian. We want your help and the help of every lover of fair play in Britain. *help it* Can you refuse our appeal?
