10<sup>th</sup> Dec 1938

Dear Sir

I wish your proposed meeting  
on the 11<sup>th</sup> every success.

Unfortunately I cannot attend it  
owing to important Religious  
Services that Sunday evening at  
8 p.m. I have hope to live to  
see that Partition blot wiped off  
the reputation of England. It is  
entirely England's trick to divide  
& keep under subjection Ireland  
But the plot has miscarried, & the  
thing is not paying, or creditable  
That is why I hope to see its termination.  
Little did we think in 1914 that  
the political interest of England in

"Small nationalities" like Belgium  
would apply to Ireland. but happily  
Irish Exiles, & Nationals whom they  
influenced made it apply to her.

So this Ramp of "Plebiscites" over  
the border should apply to Chamberlain  
colleagues. ?

No wonder Hitler & Mussolini  
can point, with scorn, to Britain's  
lectures to them. Was it old "Lid"  
who joked with England's love of  
freedom. "Provided all the row and  
fight are out in Poland

Thiff in "hu"  
This is a much smaller job than  
Collins & Pearce tackled. May  
I succeed

Yours faithfully  
A. J. Cannon King
