January 27th. 1939

P.D. Carey, Esq.,

Dear Mr. Carey,

I shall have great pleasure in sending you a telegram to-morrow for Sunday's meeting as suggested. The following is a copy of the telegram I sent to the Hon. Secretary of the "Irish Anti-Partition League", Manchester, for the meeting held there on January 15th.

"Anti-Partition League London send greetings. Confident combined efforts will do much to bring home to the British public public Britain's responsibility for Partition and thus hasten the restoration of the Political and Economic unity of our country which alone can establish real and lasting peace between Ireland and Britain. God speed the good work in the Manchester area."

I regret the delay in carrying out my undertaking to let you have particulars of our future plans, but I am at present preparing a folder giving these and other particulars to be circulated in connection with an appeal for funds and active supporters and I shall let you have a copy as soon as the job is complete. Meanwhile, you may be interested in the enclosed copy of the very hurriedly prepared "Application for Membership Forms" which were distributed at our first General Meeting and in which certain alterations are now being made.

With every good wish for the success of your Meeting.

Yours truly,

Hon. Secretary of the
Anti-Partition of Ireland League
